## THE FIRST BABY HAS BEEN ENROLLED!

Congratulations to Westmead Hospital for enrolling the first baby to BOOSTII

## Progress Update

- The Protocol, Study Manual and Case Report Forms have now been finalised
- A web-based eCRF data base (Inform) has been developed along with a training workshop for users
- An Interactive Voice Recognition System (IVRS) has been developed to enable sites to perform 24 hour telephone randomisation
- Software has been developed and validated for downloading continuous oximeter data. Thank you Dr Girvan Malcolm!
- Other countries successful in obtaining ethics approval include: New Zealand, Canada, and the United Kingdom. (United States is in progress)

## Compliance Reward **SpO2 88%-92%**

We will be sending out BOOST Chocolate Bars to the NICU with the highest compliance, or most improved compliance each month during the trial. GOOD LUCK!

*Thank you to our sponsors Cadbury Schweppes for donating Easter Eggs and BOOST Bars for the NICUs involved in BOOSTII*
